### **Outcomes:**

We would like to share and discuss our findings with academics and practitioners from Romania, Spain and other countries who have the same concerns. Analytical papers capable of offering examples of best practices within the announced fields of interest are highly appreciated. Practitioners' submissions are not supposed to be research papers, but rather short case studies on good or bad practices.

The papers presented within the conference will be published in the [International Law Review](#). The review is included in the international databases: SSRN, EBSCO, ProQuest and VLEX.

Papers submitted after the deadline cannot be published.
